Financial Director - CEE | GARSoft | Polytechnic School - University of São Paulo
São Paulo

Resumo

I study engineering at the Polytechnic School of the University of São Paulo.

I have an analytical and strategic profile.

My differential is the creativity to solve problems in an innovative and efficient way.

In my spare time I like to walk around listening to music.

Experiência

Centro de Engenharia Elétrica e Computação - Poli USP
Financial Director - Academic Center of Electrical and Computer Engineering
novembro de 2020 - Present (1 ano 5 meses)
São Paulo, São Paulo, Brazil

As Financial Director of the Academic Center, I am responsible with the Treasury for finding ways to finance projects for the Academic Center and the management of our assets.

Escola Politécnica da USP

1 ano 1 mês

Software Technology Lab (LTS) - Software Architecture Group (GARSoft)
março de 2021 - Present (1 ano 1 mês)
São Paulo, São Paulo, Brazil

At GARSoft I work on projects, mentored by Prof. Dr. Jorge Luis Risco Becerra, focused on Software Engineering. The projects have an intersection between academic research and the market, always seeking to innovate.

Safety in Electrical Installations - PUB Scholarship
agosto de 2021 - Present (8 meses)
São Paulo, São Paulo, Brazil

Project mentored by Prof. Dr. José Aquiles Baesso Grimoni in partnership with the organization PEABIRU TCA focused on bringing safety solutions to electrical installations in buildings in the central area of São Paulo.

Teros Pricing

Software Engineer Internship

julho de 2021 - janeiro de 2022 (7 meses)

São Paulo, São Paulo, Brazil

At Teros I had the opportunity to work developing applications related to the Open Banking project and also related to Pricing projects.

Mottu - Aluguel de motos

Summer Internship in Information Technology - Summer Internship

janeiro de 2021 - fevereiro de 2021 (2 meses)

São Paulo, Brazil

During my summer internship at Mottu, I worked essentially on 3 projects:

- Analysis of data from the sales team system messages: I was responsible for analyzing the sales system data so that I could guide the user interface team in the prototyping of a new system that would increase the productivity of salespeople's services.
- Prospecting for global venture capital investors: with my good performance in the analysis of sales system data, the CEO, Rubens Zanellato, invited me to help him prospect for global startup investors to join the Serie A from Mottu.
- Implementation of a robot to indicate the drivers responsible for the fines received with Mottu motorcycles: with the success of prospecting for investors, I was directed to work directly with the CTO, Caetano Minuzzo, who left me in charge of automating the business process of the indication of drivers, in the system of the City Hall of São Paulo, responsible for fines with motorcycles in the Mottu fleet.

Formação acadêmica

Polytechnic School - University of São Paulo

Bachelor of Engineering - BE, Electrical Engineering · (2019 - 2024)
